

POWERED BY

## Full Featured, Contractor Grade Generator

Heavy Duty Design, High Quality,  
High Value, Long Life &  
Low Fuel Consumption

### FEATURES

- Heavy duty, industrial, electric start Lombardini diesel engine
- Massive frame: 1.25" steel tube; CNC formed; MIG welded and powder coated
- "Focalized" vibration isolation system assures smooth operation
- 5 gal. aluminum "diamond plate" fuel tank w/locking cap; runtime 10 hours at rated/cont. load
- High quality 2-pole alternator with low harmonic distortion and clean wave form
- Low oil pressure automatic engine shutdown system

### SPECIFICATIONS

#### ELECTRICAL OUTPUT

- 5500W surge output; 4500W rated/cont. output
- 120/240V; single phase; 60Hz; <6% THD
- Surge amps: 45.8A@120V; 22.9A@240V
- Rated amps: 37.5A@120V; 18.8A@240V

#### ENGINE

- Lombardini 15LD 400; rated at 10hp
- Electric start with recoil back-up
- Direct injected, low fuel consumption
- EPA and CARB certified
- 3-year limited warranty

#### WEIGHTS AND DIMENSIONS

- 260lbs
- 28.0"L x 20.5"W x 23.38" H

#### WARRANTY - Generator Set

- 1 year limited

#### STANDARD CONTROL PANEL

- Mainline 20A-2 pole thermal-magnetic breaker
- Qty 2: GFCI duplex (NEMA 5-20R)
- Qty 1: 120V/30A twistlock (NEMA L5-30)
- Qty 1: 120/240V-30A twistlock (NEMA L14-30)
- Hourmeter
- Voltmeter
- Engine control module w/key switch and warning lamps (oil pressure, charging)
- Grounding post

#### DELUXE CONTROL PANEL

(Standard panel plus)

- Voltage selection switch: 120V or 120/240V
- Optional engine idle control circuit/switch

### OPTIONAL MOBILITY / SKY HOOK KIT

- 10" pneumatic tires allow easy movement
- Massive 1.00" square tube drop axle
- Rest brackets with elastomeric pad prevent "walking"
- Swing down handle stores out of the way during operation or transport
- Center hook for lifting
